

## US KONE Wins Trump Tower Order

Chicago, Ill. – (March 29, 2005) - KONE has been chosen to supply all 26 elevators for the 97 -floor Trump International Hotel and Tower in Chicago. When completed, it will be the second tallest building in the United States, rising to 414.5 meters (maximum elevator travel = 351 meters). The building, located at 401 North Wabash in the heart of Chicago, will be home to 472 luxury condominiums and a five-star hotel with 286 luxury condominium guest rooms. The project also includes a conference center with state-of-the-art telecommunications systems, a health spa, two ballrooms, a retail and dining area, and 1000 indoor parking spaces.

Trump Tower has been designed for the Trump Organization by Skidmore Owings and Merrill LLP, architects. The construction manager is Bovis Lend Lease and the elevator consultant is Lerch Bates and Associates.

The KONE delivery will consist of seven KONE Alta™ elevators (four at 8.0 m/s, one at 6.0 m/s, and two at 5.0 m/s), 14 KONE MiniSpace™ units (10 at 3.5 m/s and four at 2.5 m/s) and five units of which at least three will be KONE MonoSpace® elevators. The 8.0 m/s units will be KONE's fastest in North America, and the 6.0 m/s service elevator stopping at all 96 floors will be powered by a KONE MX100 EcoDisc® machine.

The first stage of Trump International Hotel and Tower will be opened for occupancy in mid-2007, and full occupancy will be achieved by the spring of 2009. Approximate construction cost for the project is USD 750 million.

KONE Inc., with U.S. operations headquartered in Moline, provides complete and innovative solutions for the installation, modernization and maintenance of elevators and escalators and the maintenance of automatic building doors. The company operates globally with 23,000 employees and subsidiaries in 40 countries. KONE is known as a worldwide service company with the industry's leading technological innovations.
